EXTENSION COMMITTEE SCORED BY THE REV. DR. ROBINSON.

He Tells the Presbytery that the Commit-tee Is a Pallura-Helping Feeble Churches - Delegates Elected to Atlend the Synod,

ome member of the Committee on Church Extension changed a resolution offered by Dr. Charles S. Robinson at the last meeting of the Presbytery, so that the committee named was "urgently advised" and not "directed" by the Preabytery to give assistance to the New York
Preabyterian Church, of which Dr. Robinson is
He al pastor. Yesterday the Presbytery held a meet-ing in the First Presbyterian Church, Fifth avenue and Eleventh street. Dr. Robinson was present and lay in wait for the committee. Not only did he censure its members for non-attend-ance at meeting of the Presbytery, but he criticised the member who changed the form of the resolution. He struck out right and left | of tailor-to-order garments. until he aroused the ire of Dr. William Merle Smith, who answered him rather sharply, while Dr. W. M. Martin said he was ready at any time to resign. Dr. Robinson never ceased to harass the members of the committee until he tut on his slik hat and left the church.

After devotional exercises in the morning the regular session opened. Dr. Robert Russell Booth was chosen Moderator. He in turn appointed Dr. George Alexander, Vice-Moderator The Rev. J. J. Lampe was elected temporary clerk. The trustees of the Presbytery reported that

the Canal Street Presbyterian Church, which as an organization was now dissolved, had transferred to the Presbytery certain property in Greene street valued at \$80,000, a gift of George Lorillard, from whom a lease was held in per petuity. This lease, together with other rights of property, was subsequently purchased from the heirs of the donor. By recourse to a fund left by the late Elliott F. Shepard, an office building will be erected on the ground, which

will yield an income of \$9,000 a year.

Dr. Robinson arrayed himself first against Dr. Parkhurst. The Madison Square Presbyterian Church sought to establish a mission in the church of Sea and Land, which was unable to meet expenses and had to discontinue regular services. Dr. Robinson said it was illegal to "degrade a sovereign church into a mission," and in his opinion it was doubtful whether the trustees of the church had agreed to the transfer "under pressure of circumstances or circumstances of pressure." As the lease was to be held by the Madison Square Church for one year only, the Presbytery decided to make the transfer. Dr. Robinson was the only man who voted in the negative.

Dr. Ramsay of the Harlem Presbyterian Church of Sea and Land, which was unable to

only, the Presbytery decided to make the transfer. Dr. Ramsay of the Harlem Presbyterian Church was Chairman of a committee which had in charge the investigation of the condition of the East Harlem Presbyterian Church, in East 110th street. His report recommended that the Presbytery direct the Committee on Clerical Extension to pay for the completion of the structure, and that it be made ready for occupancy before winter.

Dr. Patterson, who is pastor of the church, said that the population east of Madison avenue, from Elighty-sixth street to 130th street, was 203,848 souis, and that the Presbyterian Church had but one congregation in the territory. In the same area lying to the west of Central Park lifere was a population of 70,000, with ten churches, and property valued at \$2,000,000. We characterized the half-finished church, which is worth \$17,000, as an "uncanny advertisement of Presbyterian generosity."

This was the opportunity for which Dr. Robinson waited. According to his views, the Church Extension Committee was a failure because the chief men, such as Morris K. Jesup, and Messrs. Inlay and Van Orden, never attended a meeting of the Presbytery and heard of the actions of the body only through the Secretary of the Board. "Directed" was the word used when his resolution was passed at the last meeting, but on looking over the minutes he found that the words "urgently advised" had been substituted.

Dr. Wylie confessed that he had thought it

been substituted.

Dr. Wylle confessed that he had thought it less to modify the wording of the resolution. Dr. William Merle Smith defended the committee. For some time the Presbytery wrangled over the change, and finally decided to substitute "authorized."

A special committee on the classification of frustees reported that, owing to the exceptional harter granted to the New York Presbytery in 1807, the body could have ten trustees, instead if nine, and Dr. Howard Duffield was elected be tenth trustee. Dr. G. W. F. Birch, Chairman of the Committee

Dr. G. W. F. Birch, Chairman of the Committee on Hensyelence, reported that the total contributions for the present year, ending in April, amounted to \$914,405,08, an excess over last year of \$48,634.49. Held for delegates to the General Synod, which will meet in the First Presbyterian Church. Ten ministers and ten elders were elected, with alternates. The ministers are:

CAN'T IMPORT A PROPERTY MAN Secretary Cartisle Orders Daly's Man Elli. ott Beported.

Secretary Carlisle gave his final decision yesterday in the case of Henry W. Elliott. the property man who came to this country on Aug. 20 under contract to work for Augustin Daly at his theatre. The Secretary orders that Elliott be sent back to England.

Elliott had been in New York about three weeks when a complaint was made by the Theatrical Protective Union that his importation was a violation of the alien contract labor law. On Sept. 18 Elliott was ordered deported, and was arrested and taken to Ellis Island, where he has since been detained. His case meanwhile was appealed to the Secretary of the Treasury. It was contended that

tary of the Treasury. It was contended that Elliott was an artist, and some models that he had made were broucht forward in proof. The point at issue, however, was whether a property mate, as such, is an artist. The Secretary's decision on this point is that he is "neither an actor nor an artist."

Mr. Elliott, who is a pleasant-voiced young Englishman, has been made as comfortable as possible during his two weeks' stay at Ellis Island, and a good deal of freedom has been allowed him in his movements. He has made a few trips to the city, but always with a blue-coasted and brass-buttoned official, and he has been permitted to see his friends whenever he liked. Even at his meals, however, which he takes at the restaurant on the Island, he is accompanied by an inspector. All of the officials have count to know him and they all feel sorry for him.

Mr. Elliott refused to say anything about the

for him.

Mr. Elliott refused to say anything about the matter yesterday, except that it was a test case, and that if anything more could be done about it it would be done by his lawyer, Warren W. Foster of 261 Broadway,

Ms. Daly is in Boston.

SAYS HE HAS FOUND TROMBLY.

Seits Now Likely, it is Thought, to Get Half of Chauvin's Estate. PERTH AMBOY, N. J., Oct. 1. John H. Seitz of Detroit sent word to Counsellor Hommann of this city this morning that he had found William D. Trombly. It is now believed that all barriers to Seitz entering into possession of one-half of Charles S. Chauvin's property in the suburbs of Detroit have been removed.

Seitz's right to the property rested in the validity of a deed which Trombly gave in 1890. It was not recorded until after Chauvin's death. It was of no value unless the grantor was living.

Thurber Whyland Company. Andrew Kirkpatrick and Thomas Reid, the receivers of the Thurber Whyland Company. wholesale grocers, applied to the Supreme Court yesterday for their discharge as receivers of the company in this State, and for permission to turn over the assets to themselves as receivers appointed by the New Jersev courts for distri-oution under direction of the latter. The matter was set down for a hearing on the 12th inst. Jurier affidavit states that the total claims proved were \$800,000, of which \$700,000 have been assigned to the reorganization company. The assets were been assigned to the reorganization company. The assets were sold for \$600,000 to the new

MRS. MEYER AND HYPNOTISM.

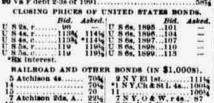

Dr. O'Sullivan Bentes that He Has Any Such Influence Over the Accused Woman

Dr. William J. O'Sullivan, the medico-legal expert, whom it is supposed will defend Mrs. Meyer in her approaching trial, was seen yes terday and asked whether the statement was true that the plea that she was acting under hypnotic influence would be used in her defence. "It is not altogether certain that we shall de fend Mrs. Meyer, as the Court has not as yet as-

signed us. If we are, I can only say at present that we cannot discuss the probable defence under any circumstances. What I can under any circumstances. What I can say is that the statement that Mr. Brooke or myself has been consulting works on hypnotism in the public or private libraries is unfounded, for whenever I want to read a book I buy it. All this talk about my having an influence over Mrs. Meyer, hypnotic or otherwise, is absurd. Our relations are no more than those of lawyer and client. Assistant District Autorney McIntyre said that the trial would probably not take place until the end of November, as the appeal of Dr. Huchanan would come up some time this month, and, as Messrs. Brooke and O'Sullivan would have to prepare for this, it would be unfair to ask them to try the case of Mrs. Meyer at once.

PHILADELPHIA CLOSING QUOTATIONS. 

MONDAY, Oct. 1. Material progress was made to-day in the pro-

LATERT LORDON QUOTATIONS

ess of marking down the price of Sugar Refining to figures satisfactory to those who control the market for the stock, as well as the industry that it represents. On sales of 52,000 shares Sugar Refining closed 2% & cent. below the final price of Saturday, and at the lowest price re-corded for it. To-day's decline, like the move-ment of the stock since the present Tariff bill became a law, requires no explanation other than that which was practically furnished at that time by the managers of the company, and which was a notice to every intelligent speculator in stocks that they had dis-posed of their holdings, and were consequently in favor of lower prices. The market for Sugar Refining may rally occasionally, should the stock become oversold, but the downward move-ment will not be permanently checked until the price reaches figures that will tempt the managers of the company to buy back their holdings. Although the announcement was made early in the day that the usual quarterly dividend

upon Chicago Gas certificates would be paid, there was a good deal of pressure to sell the certificates, which left them nearly a point lower than on Saturday. St. Paul, C., B. and Quincy, Distilling, and Western Union completed the list of half a dozen stocks that can be accurately described as active. The three first named closed fractionally lower, while Western Union, under what appeared to be the liquidation of a speculative account, closed 11% \$\mathbb{P}\$ cent, lower than on Saturday. A number of inactive stocks, notably National Lead, New England, Louisville and Nashville, Manhattan Railway, American Cotton Oil, and American Tobacco, closed a point or two lower The evidence furnished by the advocates of lower prices, that they form the only aggressive faction in the market, goes a long ways toward discouraging ventures for long account, and this, of course, is a corresponding advantage to the bears.

Although the trading in Northern Pacific securities has become restricted, because they have struck a bankrupt level, the Street takes a deep interest in the affairs of the company, because it and its clients have suffered enormous losses through the mismanagement of the property and still hold the company's frightfully depre ciated obligations. During the last few days ar that there was a contest for the honor of assisting the receivers in financing the company. That is not the fact. A year ago the Court that appointed the receivers of the Northern Pacific Railroad Company authorized them to issue \$5,000,000 of certificates for the purpose of taking up obligations of the company secured by collateral which might be sold by the lenders upon them if the receivers were not in a position to pay the loans. Only \$2,000,000 of these certificates were issued at that time, and they were renewed for a second term of six months, expiring to-day, at a total cost for the year of 11 W cent.

Other floating debt obligations will mature in the near future, and as the net earnings of the company are not sufficient to meet them the receivers applied to the Court for authority to extend the entire issue of \$5,000,000 for three years at 6% & cent. They have already advanced from the current income of the company \$300,000 to prevent the sale securities pledged to secure loans. This amount, they claim, should be returned to them, as the money is imperatively needed for the maintenance of the property. These statements, which are sworn to by all three of the receivers, should dispose of the specious state-ment made by the President of the company today that the receivers have asked for an increas-In the amount of certificates authorized by the alleged increase.

President, also makes the statement that it was not aware until a few days ago of the was not aware until a few days ago of the requirements of the receivers for cash to take up the \$2,135,000 of their certificates maturing to-day. This is an astounding confession of indifference or incompetency, for the extension of the certificates for six months from April 1 last was of itself notice to every one concerned that the obligations would mature on Oct. 1. The Reorganization Committee was alive to the fact, and with the view of protecting all interests in the property and of facilitating the Court in its economical management of the funds necessary to redeem the outstanding certificates at 63 8 cent. per annum for a period of three years. That the management of the company should not have discovered the desirability of assisting the receivers in this matter until the middle of last week may possibly off-set in the mind of the average shareholder whatever temporary advantage the management appears to have gained by supplying the money for thirty days and at the same time endeavoring to misrepresent the facts to the

public. It is not true, as stated by the President of the company, that the order extending the certifi-cates asked for by the receivers gives those who offered to advance the money upon them power to sell the collateral at less than its market value. The order specifies that should the receivers default upon the loan, then after a lapse of sixty days the collateral is to be advertised for thirty days and sold publicly to the highest bidder. These are more liberal conditions than are named in the usual form of collateral loan

A point has been made against the order asked for by the receivers that it permits of the de-The Court, by extending the outstanding re-

should be deposited under that committee to participate in a reorganization of that property. ceivers' certificates for thirty days, has delayed a long-time extension of the obligations ina long-time extension of the obligations in-curred by the receivers, has thrown aside a proposition to extend them at a reasonable rate for a period that would probably cover the re-ceivership, and has embarrassed the receivers for a period that would probably cover the re-ceivership, and has embarrassed the receivers in their efforts to finance economically the large floating debt of the company. At the same time it has placed upon the President of the company and his associates the responsibility of carrying the floating debt upon better terms than it is being carried by the present creditors or those offered by the Reorganization Committee. The offered by the Reorganization Committee. The action of the management in this matter, and the implied criticisms of the receivers contained in the Precident's statement published to-day, may win the support of the shareholders at the annual election for directors to be held this mosth. Having been duped twice by Villard, the stockholders of the Northern Pacific Company are apparently eager to surrender their noses to any one's leash. They have sacrificed millions of dollars to perpetuate brilliant chicanery, and they might appropriately complete their record by humiliating themselves in support of a stupidly conducted personal fight.

Final sales compare with those of Saturday as follows:

were small, the cables were better, the East Indian shipments were small, and there was a fair demand from the shorts. On the other hand, the visible supply showed a considerable increase. The quantity on passage to Europe fell off 1.432,000 bush. and the delivertees on contracts here were only about 75,000 bush. Nevertheless the advance, sgas slight. Buillish news was to a great extent neutralized by bearish news. Corn was higher with small receipts at Chicago and considerable covering of shorts. Liverpool was 441, to 44, higher and the quantity on passage to Europe decreased 512,000 bush. Later on there was some pressure to sell and part of the carly improvement was lost. The visible supply instead of showing a decrease, as some had expected, actually increased 112,000 bushels, but this was so small that it had no detrimental effect. There was quite a good demand from the shorts here and at Chicago. The interior shipments were reported smaller. Outs were stronger in sympathy with other grain. The visible supply increased 300,000 bush. The receipts are smaller than at this time last year, and there is a fair cash demand.

Giocknies-Coffee declined 100.15 points, and closed barely steady. Sales 22,250 bags. Europe sold, and the cables were weak. The only buying appeared to be for short account. Warehouse deliveries last week 55,500, against 61,084 tat year. Havre declined 140, 168, and then recovered part of this. Hamburg was easier on some months. The arrival or offee here totally were 50,000 tags, mostly Santos. Rio was weak. 15,000, against 61,084 tat year. Havre declined 150, 160,000, against 61,084 tat year. Totals 15,468,147 14,405,024 15,448,895 12,775,588
